DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Henry J. Daley on 12/13/04. The application has been amended as follows:

Claims 4 and 6, line 6, delete "brake" and insert - - actuating - -.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the claimed limitation of a brake member which is rotatably arranged on the shutter base plate and has two pressed portions which are contacted, pressed and moved by the actuating member at each termination state of the reciprocating rotation of the actuating member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
